My neighbour has just changed his car and bought a [used BMW 3 Series](#) from Big Motoring World. He always has to go one better and have the best car in the street. We have got a BMW 3 Series Saloon on a 2007/57 plate, so low and behold he has gone and purchased a used BMW 3 Series Coupe in my favourite BMW Individual exterior paint which is Estoril Blue metallic. It does look fabulous with the M3 Bodykit and 18 Inch MV Spoke Alloy wheels but I hope he took out a BMW Service plan as he will face massive repair bills at the BMW dealership when it needs a service the way he drives around.
